

JUDGE FRANK COX? NO WAY!

Frank Cox, Chief Magistrate Judge

As reported by 11 Alive news, Frank Cox **reduced the bond of an alleged child molester**, stating “the facts of the case are not that egregious.” The accused, a substitute teacher, **was released after allegedly molesting five students from Riverside Elementary School.**

The mother of a nine year old girl **posted on a legal advice forum** that Frank Cox ordered her to return her daughter to her father, with whom she has joint custody, **despite the fact the child was being molested by her step-brother.**

Magistrate Judge Frank Cox **acts as though he has the power to do whatever he wants.** After harassing Pretrial Director Wanda Spann, he illegally terminated her after she began to question the release of unsupervised felons. This injustice has been allowed to stand despite a deposition of Cox where he constantly makes statements that show his actions were illegal. The full deposition is available for viewing at:

- Cox **illegally terminated** Wanda Spann from her 20 year position as the Director of Pretrial Court Services, and **later admitted he had NO AUTHORITY TO DO SO.**
- Frank Cox and some judges working below him **often released criminal defendants** charged with serious felonies including **child molestation** with **no court supervision.**
- Cox allowed a criminal defendant charged with **private home burglary** to **sign himself out of jail without posting any money.**
- Judge Cox believes in having **employees spied on,** including judges.
- Cox admitted he **fired** an employee after she **ended their “social relationship.”**
